DESIGN UNLIMITED

Concrete has long been a main enabler of modern construction, providing multiple and unique properties, and flexibility. It is now also recognised as an integral interior design component, being that it can be cast into virtually any shape or form, which allows for both design freedom and an almost infinite amount of applications.

Even with all of this incredible flexibility, we do realise that there are times and projects, where concrete is not an option. Together with our Italian partner Tecnoscale, we are delighted to be able to bridge this gap, and provide you with stunningly beautiful luxury stairs in a vast array of materials and options.

DESIGN UNLIMITED

AXOLUTE STAIRCASE RANGE

AXOLUTE MANHATTAN

Cantilever staircase (supporting strip hidden in the wall) with solid beech steps. Glass railing with panels in transparent glass 8 + 8mm

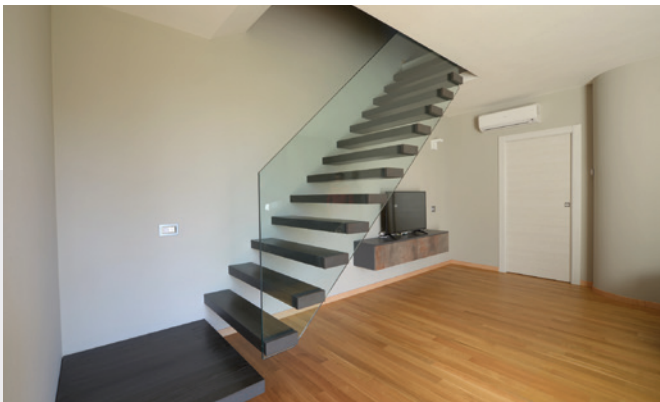

AXOLUTE

Stepped soffit stairs made with wooden steps of closed-up oak with tempered laminated glass panels.

AXOLUTE CRYSTAL

Grey Brushed Oak steps and glass railing, consisting of a single transparent glass panel.

SPIRAL STAIRCASE RANGE

SPIRAL STAIRCASE

Spiral staircase. Side band in metal, sp. 8 mm. Lamellar beech steps sp. 40mm.

HELICAL STAIRCASE

Helical staircase with double band structure shaped by laser in painted metal. Closed wooden risers, railing in painted metal.

SPIRAL STAIRCASE

Spiral Staircase with glass steps and stainless steel railing: the perfect stairs for those looking for a light, bright and elegant solution. Customised central pole using laser-tube technology for the creation of lighting slits.

SPIRAL STAIRCASE

PLANA STAIRCASE RANGE

PLANA DIAMOND

Plana Diamond Staircase with load-bearing bands in 10mm laser-painted metal. Steps in transparent laminated glass 8 + 8 + 8mm, with metal support plates

PLANA CLASSIC

Plana Classic Staircase blend of aesthetics and functionality. Double band with laser-shaped painted metal and customised steps. Railing panels in transparent stratified tempered glass 8 + 8mm with stainless steel connectors.

INTRODUCING REFLEX

Introducing Reflex: a new and original design of Tecnoscale. A single sheet of Polished Stainless Steel gives it an extraordinary "Mirror effect" which is also accentuated by the transparent glass panel acting as a railing.

The steps have been engraved with anti-slip bands to reduce the risk of slipping. A stunning bright, modern and functional stairs.

“Introducing
Reflex.. A
stunning
bright,
modern and
functional
stairs.”
